

**CITY OF LAGUNA WOODS  
MEMBER OF THE CITY COUNCIL**

**ROBERT BOUER**

**OCCUPATION:** Retired Physician - Attorney

My college and medical degrees were earned at the University of Illinois. I served as a medical officer during the Korean conflict. For 40 years, I was a specialist in obstetrics and gynecology. I earned my law degree from Loyola University and have extensive teaching experience at Northwestern University and Cook County Hospital where I was also president of the medical staff.

I am a member of the American Medical Association and many other professional societies and was a consultant to Chicago's Health Commissioner.

My current activities include: City councilman; Lafco Commissioner (municipal services); Vector Control Trustee (public health and safety); Laguna Canyon Foundation (Environment); California Senior Legislature (senior issue advocacy); American Legion Board; Kiwanis and other organizations.

I am proud of the progress of our city in first five years. Most of the original goals have been achieved. Reduction in traffic and greater access for our elderly and disabled must be addressed.

I want to continue using City funds to improve social services and lighting. I believe in a conservative, responsible fiscal policy and careful planning before making judgments. I will work with the Council and city staff to maintain an effective, responsible, forward thinking Laguna Woods.
